Module	WEDE5020
Ice task	1

Organization 1 :

Organization Name: Joyful Insights Charity

Category: Non-Profit Organization

What is the organization about?

Joyful Insights Charity is a community-based organization focused on providing food, clothing, and shelter to homeless people. They also offer job training programs to help individuals find employment.

Products or services it offers:

- Food distribution
- Temporary shelter
- Job training workshops

Target audience:

Homeless individuals and low-income families in the local community.

Current Website:

No, Joyful Insights Charity does not currently have a website.

Motivation for Choosing this Organization:

Joyful Insights Charity would greatly benefit from having a website. It would help them reach more donors and volunteers, showcase their programs, and provide resources to those in need. Since they do not have a website yet, creating one would improve their online presence significantly.

Organization 2

Organization Name: Joyful Delights Bakery

Category: Small Business

What is the organization about?

Joyful Delights Bakery is a local bakery that offers a variety of fresh baked goods including bread, cakes, cookies, and pastries. They pride themselves on using natural ingredients and providing friendly customer service.

Products or services it offers:

- Freshly baked bread
- Cakes for birthdays and special events
- Assorted pastries and cookies

Target audience:

Local community members, families, and customers looking for quality baked treats.

Current Website:

No, Joyful Delights Bakery does not currently have a website.

Motivation for Choosing this Organization:

Joyful Delights Bakery would benefit from having a website to showcase their products, share special offers, and allow customers to place orders online. Since they don't have a website yet, creating one would help grow their business and reach more customers.
